

Creating Competitive Advantages in the Inland Empire

November 6, 2013

Presented by:

Dr. Imran Farooq

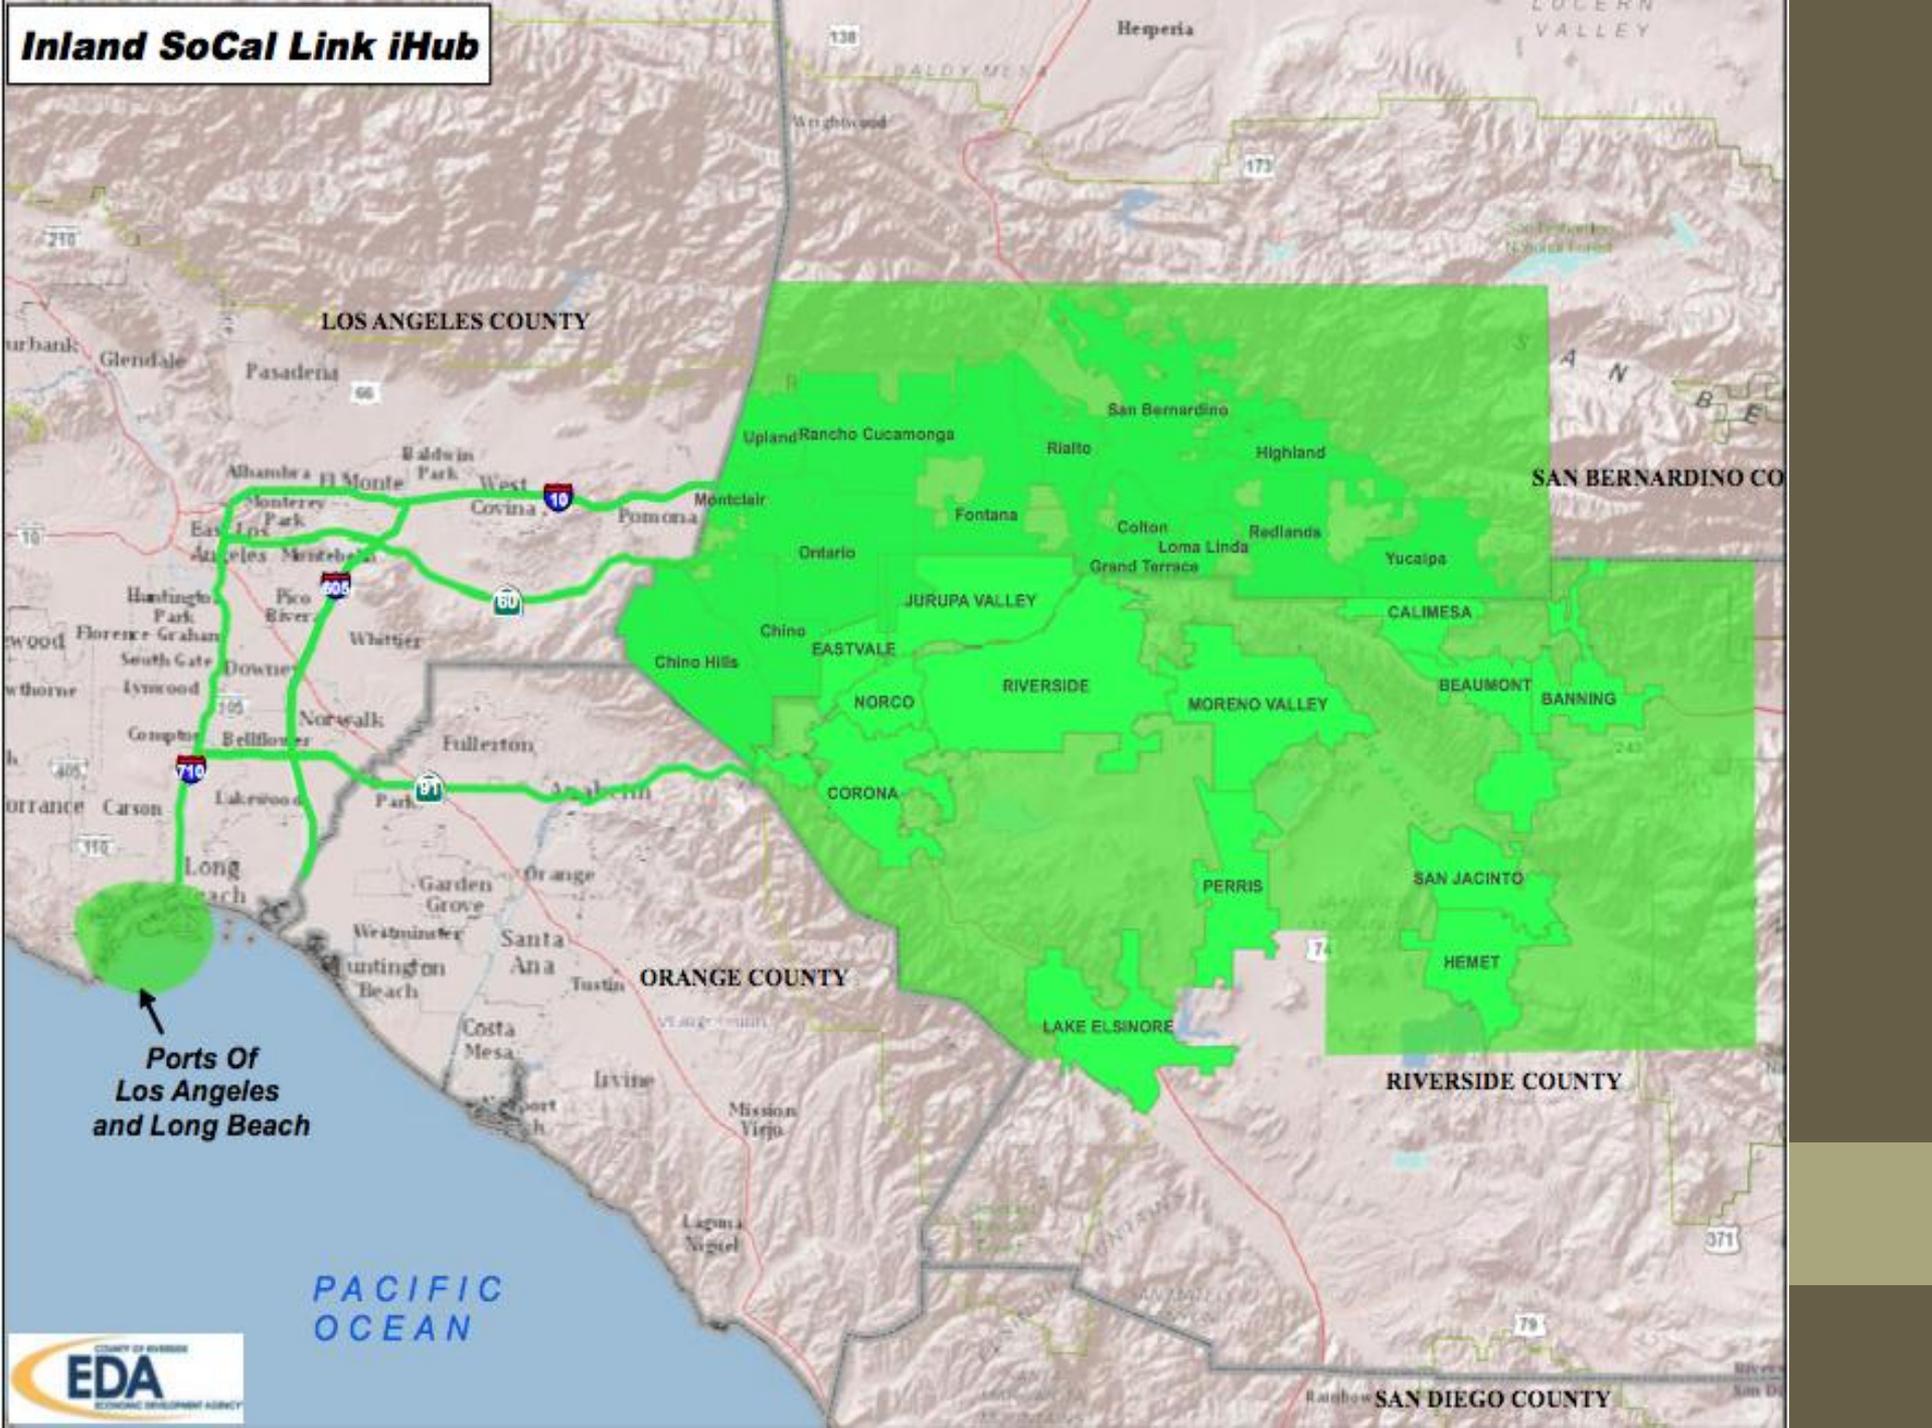

Chief Advisor – Inland SoCal Link iHUB

UCR Center for Economic Development & Innovation

Inland SoCal Link iHUB

- Key Objectives:
 - Promote collaboration and industry development in the advanced manufacturing and logistics sectors.
 - Expand the volume of exports through Port of Los Angeles that are manufactured or produced from Inland Southern California.
 - Encourage the regional attraction of foreign direct investment as a mechanism for job creation.
- Sample of Key Stakeholder participation: County of Riverside/San Bernardino, Port of LA & UC Riverside. Open to other organizations
- Next Steps:
 - We are in the process of organizing a strategic planning meeting at the Port of Los Angeles to formally structure the program.
 - Define coordinated process of regional foreign delegations that represent industries and foreign direct investment
 - Organize and globally market regional economic development assets
